

**SELF - RELIANT**

# AATMANIRBHAR BHARAT

**STOP PAYING BILLS**

*save your hard earned money  
Live Happy!*

**NO NEED TO BUY COOKING GAS**

**NO NEED TO BUY VEGETABLES & FRUITS**

**NO NEED TO PAY FOR WATER**

**NO NEED TO PAY FOR ELECTRICITY**

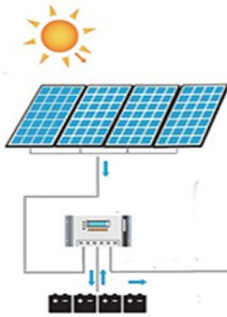

**NO NEED TO PAY FOR TRANSPORTATION**

**THIS WILL BUILD NEW INDIA FOR GENERATIONS**

**WANT TO KNOW MORE HOW IT IS POSSIBLE ? . . . next page**

**SELF - RELIANT**

**AATMANIRBHAR BHARAT**

**free Vegetables & fruits**

**HYDROPONIC  
SYSTEM**

**POWERED BY SOLAR DC SYSTEM**

**Grow vegetables/fruits at home on roof top / garden / indoor (enclosed place)**

**Hydroponic system for growing vegetables are free from fertilizers, pesticides and completely organic. Very healthy and nutritious vegetables can be grown in a very less time span. Because of enclosure, vegetables are protected from all types of harsh weather conditions, cyclones, rain, birds, animals etc.**

**Hydroponic system can help us to grow in 1 acre land with cultivation of 50 acres vertically level above level. This will save space.**

People having a hydroponic system installed can at least contribute to poor societies to curb poverty in India. This will reduce poverty in India. Hydroponic system can produce surplus vegetables, fruits, etc.

So the solar dc system will bring big difference for our people in India. Let us join our hands to build a new and healthy India.

**THIS WILL BUILD NEW INDIA FOR GENERATIONS**

# AATMANIRBHAR BHARAT

**SOLAR DC INDUCTION  
DUAL BURNER  
free Cooking**

**NO NEED TO BUY COOKING GAS**

Solar Dc induction cooker will reduce cost & will reduce to zero emission reducing global warming.

**SOLAR DC SUBMERSIBLE  
WATER PUMP  
free Water**

**NO NEED TO PAY FOR WATER**

Solar DC submersible pump will reduce cost of paying monthly water bill & electricity bill. For hydroponics systems, exterior field farming ,commercial ,industrial and residential use will be benefited.

**SOLAR DC CHARGING  
FOR E-CARS & E-BIKES  
free Transportation**

**NO NEED TO PAY FOR TRANSPORTATION**

Solar DC car or bike charger are more efficient to charge your car or bike batteries from the solar dc system. This will reduce your transportation cost by cutting down fuel car and electricity bill. So convert your AC Charger to Solar DC charger.

## HOW IT CAN BENEFIT OUR COUNTRY

**COAL MINES**

Coal mines are the biggest expenditure for Indian Government for generating electricity from thermal power using coal.

**DAM**

Hydro power is also one of the biggest expenditure for our Indian Government for generating electricity from the dam by constructing such big infrastructures.

**SOLAR PARK**

Solar parks are reducing green space , etc. like cutting of trees and forests which is a big threat to our global warming So if we produce power of our own and save our country and our earth then our future will be fruitful.

**THIS WILL BUILD NEW INDIA FOR GENERATIONS**

**LET US JOIN OUR HANDS TOGETHER FOR OUR FUTURE . . .**
